

# **FIREBIRD**

**ANALYTICAL SOLUTIONS & TECHNOLOGIES**

## MISSION CRITICAL SUPPORT

Enhancing the security and safety of our nation  
and the stability of the world.

## WHERE YOU NEED US ACROSS THE GLOBE

CONUS & Hawaii | Europe | Horn of Africa | Eastern & Western Africa | Levant | Arabian Peninsula | Western & South Asia

## Mission Critical Support

Firebird AST provides specialized analytical, intelligence, and operational services to the U.S. intelligence, DoD, homeland security, and law enforcement domains. Our work resides at the “tip of the spear” to help disrupt and mitigate illicit networks and organizations — both at home and abroad — to secure the safety and interests of the United States and its allies across the globe. Wherever we are needed, we are there.

## Firebird Analytical Solutions & Technologies

Our deep understanding of emerging geo-political threats facing our clients positions us to provide mission critical support. Our solutions leverage intelligence integration, information sharing, and predictive analysis to reduce risk and mitigate threats against U.S. interests.

Our staff possess a broad range of specialized skills and expertise. Many of our team members are veterans, and each has extensive real-world experience supporting the operational missions and requirements of the U.S. military and the federal government — in both wartime and relative peace. Our team serves at U.S.-based locations and forward-deployed across the globe — often embedded with military units in conflict or combat zones.

We deliver actionable analysis throughout the intelligence and investigative life cycle. Our team members possess strong relationships within the security community and are strategically positioned to play a vital role in supporting our clients' long-range strategic plans and objectives. This experience and perspective makes us extremely valuable to both our public- and private-sector clients as they face an increasingly complex, interconnected landscape where information dominance and strategic understanding are move valuable than ever.

Firebird's success is a direct result of our team's decades of hard work and performance and the trust and respect we've earned by maintaining a corporate culture deeply rooted in the U.S. military core values that gave us our start — **honor, integrity, selfless service, and commitment to our clients' mission.**

## DEFENSE INTELLIGENCE SOLUTIONS

- Digital forensic training, evidence preservation, and data breach prevention
- Fraud scheme education and training
- Insider threat and background investigations, and employee vetting

Specialized analytical support services, subject matter expertise, innovative solutions to a broad range of military, DoD, U.S. government, law enforcement, and private-sector clients.

We have decades of experience providing support in a broad range of conflict zones overseas as well as at U.S.-based locations.

Whether you are working at the federal, state, or local law enforcement level to counter criminal networks, conducting DoD direct action or counterterrorism missions around the globe, or protecting your commercial enterprise, Firebird AST delivers the intelligence, operational subject matter expertise, and innovative solutions on the ground where you need them to ensure mission success.

# Extensive Experience | Unparalleled Commitment to Mission Success

## Defense Intelligence Solutions

Our analysts are subject matter experts who are highly experienced in working side-by-side in the field, fully integrated, and directly with today's elite special operations and conventional force units. We have supported national intelligence agencies in developing solutions for international challenges. We deliver a wide range of highly specialized analytic services to support missions at the operational, tactical, or strategic level.

## Homeland & Law Enforcement Mission Support

While a majority of today's headlines are focused on conflicts overseas, Firebird AST is also keenly focused on current and emerging threats posed by organized criminal and terrorist networks here at home. We support U.S. law enforcement in their mission to counter these networks by employing customized methodologies and toolsets. This, combined with our understanding of the rule of law/evidentiary chain of custody, allows Firebird AST to deliver cutting-edge, cost-effective solutions to law enforcement clients at the federal, state, and local level.

## Commercial Risk Management and Intelligence Services

Firebird AST provides investigation, detection, disruption, and mitigation of criminal networks engaging in financial crimes, money laundering, and attacks on financial networks and institutions. We provide training and consulting services to help our commercial clients prevent and detect crimes as well as hardening their security posture to neutralize threats presented by criminal actors to reduce and mitigate loss of assets, customer confidence, and brand prestige.

## KEY CLIENTS & SERVICES

### **Joint Improvised Threat Defeat Agency-Defense Threat Reduction Agency**

Firebird AST provides seasoned special operations forces, all-source intelligence analysts, targeting analysts, open source/social media exploitation analysts (with native level foreign language ability), and operations professionals to the JIDO Special Operations Branch to serve as intelligence and operations integrators. Operating at four CONSU sites and 11 OCONUS sites, Firebird subject matter experts support operations targeting improvised threat technologies and the threat networks that employ them.

### **United States Secret Service: Asset Forfeiture Branch**

Firebird AST identifies for seizure and/or forfeiture, assets and investments acquired by criminal individuals and groups. We target their financial infrastructure and dismantle their organizations. We have provided commercial accounting, auditing, business analysis, and forensic financial analysis expertise and assistance to Special Agents in support of specific cases. To date our work has supported seizures of \$285 million in illicit funds.

### **Defense Intelligence Agency: Defense Counterterrorism Center**

Firebird AST's in-depth strategic, operational and tactical analysis of terrorist and paramilitary unit activities includes producing finished intelligence products for the DIA, National Counter Terrorism Center, and strategic customers, including senior policy makers and the president of the United States. We provide a specialized capability in document and media exploitation (DOMEX) and have led efforts to enhance the center's relationships with other DoD DOMEX elements to streamline joint exploitation efforts of captured enemy material.

Our commitment to our clients is driven by our **passion to interdict and disrupt terrorist and criminal networks** that threaten peace and security across the globe. Our staff are highly experienced **subject matter experts, military veterans, and former operators** who remain committed to the mission and are willing to deploy forward into conflict zones and other austere environments to support our clients and their missions. Firebird AST provides **direct, operational support** at the “tip of the spear” to make the world a safer place.

## DEFENSE INTELLIGENCE

Working side by side in the field, providing direct support to the requirements of today's elite special operations and conventional forces.

## HOMELAND SECURITY

Delivering solutions to better predict and mitigate catastrophic events, disasters, and emergencies as well as to prepare for and minimize the effects of those that can't be stopped.

## LAW ENFORCEMENT

Providing direct support and improved solutions to identify and interdict current and emerging threats and threat networks here at home.

## COMMERCIAL/FINANCIAL

Investigating, detecting, disrupting, and mitigating criminal networks engaging in financial crimes, money laundering, and attacks on financial networks and institutions.

Firebird AST is an award-winning, service-disabled, veteran-owned small business (SDVOSB) based in Northern Virginia.
